Study Helps

In the pdf and online I link single verses to www.biblehub.com.

Look at John 15:12 for example.

<https://biblehub.com/john/15-12.htm>.

The left column shows you the verse in many translations, which is useful.

At the top of the right column, you will see the verse in context. Scroll over the words in blue to get their fuller meaning, and then click on them to go deeper in Strong's Concordance.

Clicking on "love" will take you to <https://biblehub.com/greek/25.htm>, with word study info in the left column. Under the verses in the right column, you will see "Strong's Greek 25, 143 Occurrences."

If you click on that, it takes you to https://biblehub.com/greek/strongs_25.htm where the left column shows you every verse with that word. Read through them to get a better idea of the larger meaning of the word.

Backing up, cross references are on the right column, below the verse in context at <https://biblehub.com/john/15-12.htm>.

I also find Blue Letter Bible to be a great resource. www.blueletterbible.org/
