

## A RECIPE FOR TROUBLE

Our world's chaos is fully known to the Father as He moves the global chess pieces into place for the Rapture, Tribulation and/or Second Coming - - in whatever way history will show them to have taken place.

All things, both good and evil, serve Him and His purposes. He sets leaders in place; laughs at their arrogance, sets the boundaries of their rule, and removes them at will. Consider [Psalm 119:91](#), [Job 12:23](#), [Isaiah 40:23-24](#), [Psalm 2:4-6](#), [Daniel 2:21](#), and [Acts 17:26-28](#).

Trump is limited in what he can do because of the deep state - the subversive wealth and power-driven system of the Radical Left that surreptitiously influences Washington and the nation. They actively attempt to obstruct anything that Trump is for, and are free to operate because the Church has lost the influence of saltiness and light.

Trump's precedent-setting Executive Orders and his resetting the focus of the DOJ, HS and other judicial and security arms of government, will be replicated by the Left but in a contrary direction the moment they regain power. Their agenda will metastasize like cancer.

President Trump has a sense of serving God, and he is, but by his vision, creativity and boldness in making America first he is unwittingly creating the resources and systems for Biblical, Last-Days scenarios. Trump's proposed Board of Peace, part of his 20-point peace plan, appears to have ambitions to tackle conflicts worldwide and essentially gives its Chairman (Trump) dictatorial power. All but the blind can see that our advancements in AI, our push toward digital ID and digital banking, our accelerating loss of personal privacy and the world's advancement toward AGENDA-2030 (UN-2030.pdf link below) is taking us headlong into the jaws of end time events including a one-world government. The Father knows, and we are the objects of His care, but why would we think that we will be kept from a purifying fire in the process?

Only a revived Church could lie between today and the implementation of the Left's AGENDA-2030 global reset and new world order. Therefore, the most important thing for America and the only thing that ultimately matters for Christians is that we find ourselves in Christ in true repentance-based revival, but I have little hope for that. In its absence the Father will have to allow purifying fire to come upon us.
